

An Email To The Mono County Board Of Supervisors 2 1/12/21

The Covid-19 "Vaccines" Do Not Meet The Legal Definition of Vaccine

Attention Mono County Board of Supervisors, please review this information and share it with the public so as to promote informed decision making. Please know that promoting these "Vaccines" is a violation of federal statutes. Please add this email as a standalone supporting document for today's board meeting 1/12/20. Agenda item 7.A and 7.B are the relevant items.

-Mammoth Group

It is unlawful under the FTC Act, 15 U.S.C. § 41 et seq., to advertise that a product or service can prevent, treat, or cure human disease unless you possess competent and reliable scientific evidence, including, when appropriate, well-controlled human clinical studies, substantiating that the claims are true at the time they are made.

- Definition of Vaccine <https://www.cdc.gov/vaccines/vac-gen/imz-basics.htm>
- Immunity: Protection from an infectious disease. If you are immune to a disease, you can be exposed to it without becoming infected.
- Vaccine: A product that stimulates a person's immune system to produce immunity to a specific disease, protecting the person from that disease. Vaccines are usually administered through needle injections, but can also be administered by mouth or sprayed into the nose.

The primary endpoint is the prevention of symptomatic COVID-19 disease. Key secondary endpoints

include prevention of severe COVID-19 disease and prevention of infection by SARS-CoV-2.”
