

## American State National Placard

**Private Automobiles do not require Commercial License Plates**

### What is Regulation Z ?

- Regulation Z is an international banking and securities regulation that was adopted by the Federal Reserve Board of Governors, and which resulted in the Consumer Protection Acts including the Truth in Lending Act. 12 USC 226.1.
- Regulation Z was adopted to protect Private Property that was being leveraged into the Corporate System.
- Private Property is to be protected by attaching "Z tags" to it.
- All Federal, State and Local government employees are required to recognize the tags and leave cars, homes and land that are displaying "Z tags" alone.
- In America, because we have two foreign subcontractors at odds with each other, we need two kinds of "Z tags" to accomplish this same function.
  - A white "Z" with a black background waives off Municipal bill collectors
  - A black "Z" with a white background waives off Territorial bill collectors.
